## Writing algebraic expressions

Grade 5 Pre-Algebra Worksheet
Write an expression using a variable to represent each situation.

1. 12 more than d
2. 9 subtracted from $w$
3. w less than 9
4. The product of 6 and $s$
5. $m$ increased by $p$
6. The difference between k and 5
7. 5 times q
8. The ratio of 6 and $t$
9. The sum of $g$ and 6
10. Twice a number $r$ $\qquad$
11. The quotient of $s$ and 60
12. Exceeds $m$ by 15
13. 12 divided by $z$
14. 8 reduced by s
15. Three-fourths of $y$

## Writing algebraic expressions

Grade 5 Pre-Algebra Worksheet
Write an expression using a variable to represent each situation.

1. 12 more than d $\underline{d+12}$
2. 9 subtracted from w
w-9
3. $w$ less than 9
9-w
4. The product of 6 and $s$ 6s
5. $m$ increased by $p$
$\underline{m+p}$
6. The difference between k and 5
k-5
7. 5 times q

5q
8. The ratio of 6 and $t$ $\frac{6}{t}$
9. The sum of $g$ and 6
$\underline{q+6}$
10. Twice a number $r$
11. The quotient of $s$ and 60
$\underline{2 r}$
12. Exceeds $m$ by 15
$\underline{m+15}$
13. 12 divided by $z$
$\frac{12}{z}$
14. 8 reduced by s

8-s
15. Three-fourths of $y$

$$
\frac{3}{4} \text { y or } \frac{3 y}{4}
$$
