1. Mrs. Hilt had 43 cents. She bought a pencil for 20 cents and a piece of candy for 5 cents. How much money did she have left?

2. On Tuesday, Mrs. Hilt saw 88 raisins on a tray in the cafeteria. That was 8 more raisins than she saw the day before. How many raisins were on the table on Monday?

3. Mrs. Hilt bought carnival tickets. The tickets cost $4 per ticket. If Mrs. Hilt bought 12 tickets, how much did she pay?

4.   Mrs. Hilt bought 3 pizzas for $8 each. What was the total amount she paid for the three pizzas?

5.   Mrs. Hilt saw 21 snakes, 11 alligators, 36 frogs, and 57 bears. How many reptiles did Mrs. Hilt see?
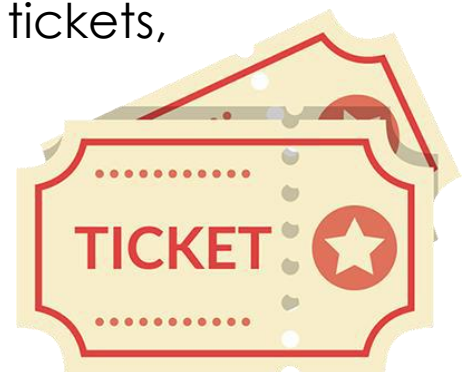

Answers

1. 43 – 20 – 5 = 18
   She has 18 cents left.

2. 88 – 8 = 80
   80 raisins were on the table on Monday.

3. 12 x 4 = 48
   She pays $48.

4. 3 x 8 = 24
   She paid $24.

5. Only snakes and alligators are reptiles.
   21 + 11 = 32
   She saw 32 reptiles.
