

Maps with coordinate grids

Grade 4 Geometry Worksheet

Study the coordinate grid and answer the questions.

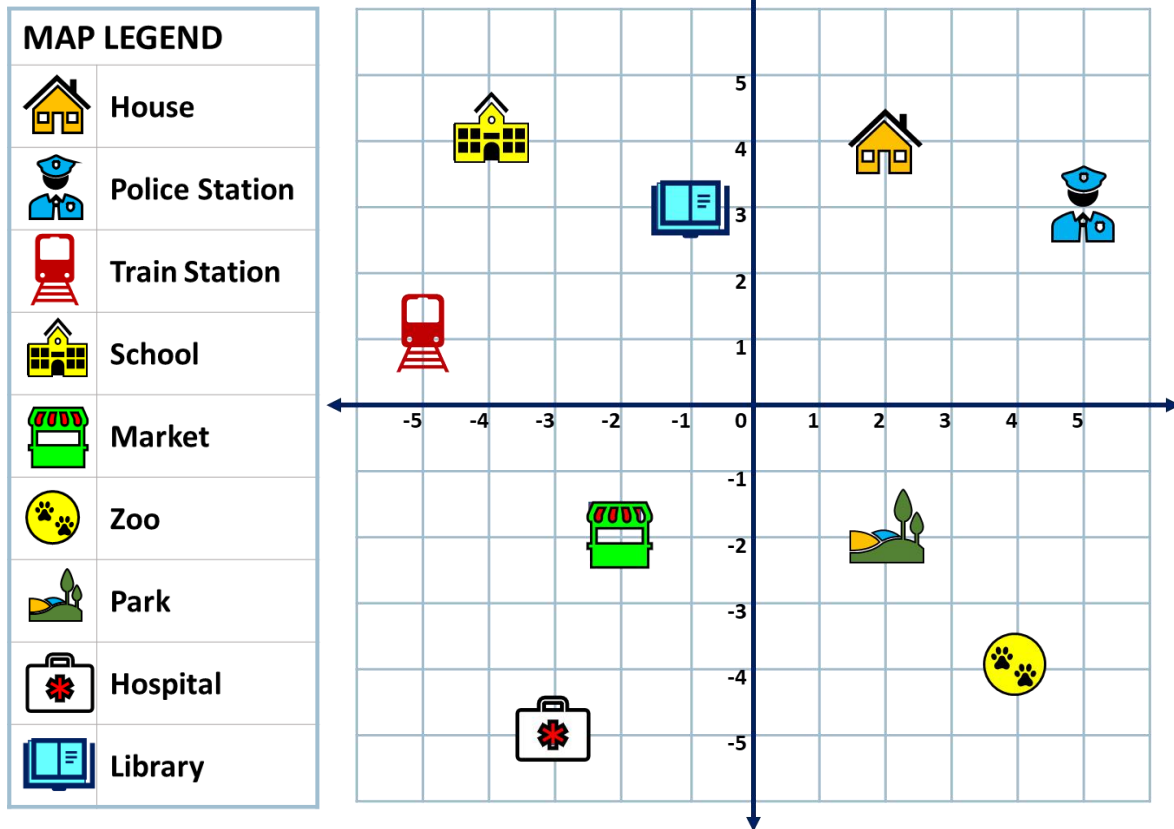

QUESTIONS:

1. At which coordinate point is the school located? _____
2. What place can be found at the coordinate point (-5,1)? _____
3. What place can be found at the coordinate point (5,3)? _____
4. At which coordinate point is the hospital located? _____
5. What place can be found at the coordinate point (-1,3)? _____
6. At which coordinate point is the zoo located? _____
7. At which coordinate point is the market located? _____
8. At which coordinate point is the house located? _____
9. What place can be found at the coordinate point (2,-2)? _____
10. What places are in Quadrant III? _____

Maps with coordinate grids

Grade 4 Geometry Worksheet

Study the coordinate grid and answer the questions.

QUESTIONS:

1. At which coordinate point is the school located? (-4,4)
2. What place can be found at the coordinate point (-5,1)? Train Station
3. What place can be found at the coordinate point (5,3)? Police Station
4. At which coordinate point is the hospital located? (-3,-5)
5. What place can be found at the coordinate point (-1,3)? Library
6. At which coordinate point is the zoo located? (4,-4)
7. At which coordinate point is the market located? (-2,-2)
8. At which coordinate point is the house located? (2,4)
9. What place can be found at the coordinate point (2,-2)? Park
10. What places are in Quadrant III? Hospital and Market
