

Animal camouflage

Grade 1 Science Worksheet

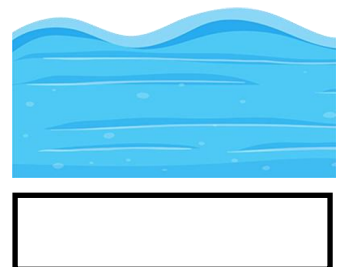

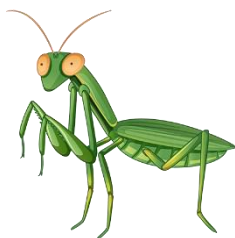

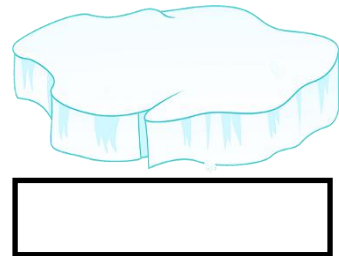

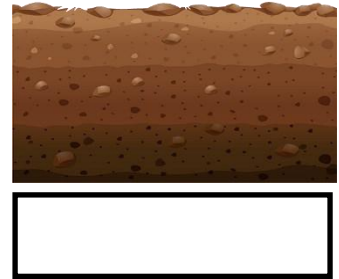

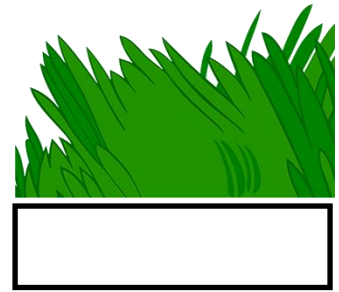

Connect each animal with its habitat. Write the color below each picture.

blue

brown

green

white

Answers

The image shows a matching exercise with four animals on the left and four natural elements on the right. Red lines connect each animal to its corresponding color:

- A brown worm is connected to a patch of brown soil.
- A white dog is connected to a patch of white snow.
- A blue dolphin is connected to a body of blue water.
- A green grasshopper is connected to a patch of green grass.

The natural elements and their corresponding color labels are:

- green
- brown
- white
- blue
