

# Manned and unmanned missions

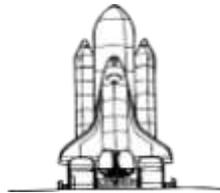

Grade 2 Science Worksheet

A manned spacecraft carries people.  
An unmanned spacecraft does not.

Circle manned or unmanned for each.

Must have life supports like  
air and water.

Does not have to return to  
Earth. Can explore farther  
away.

Must return safely to Earth.

Costs much more per  
mission.

Can get really cold or really  
hot.

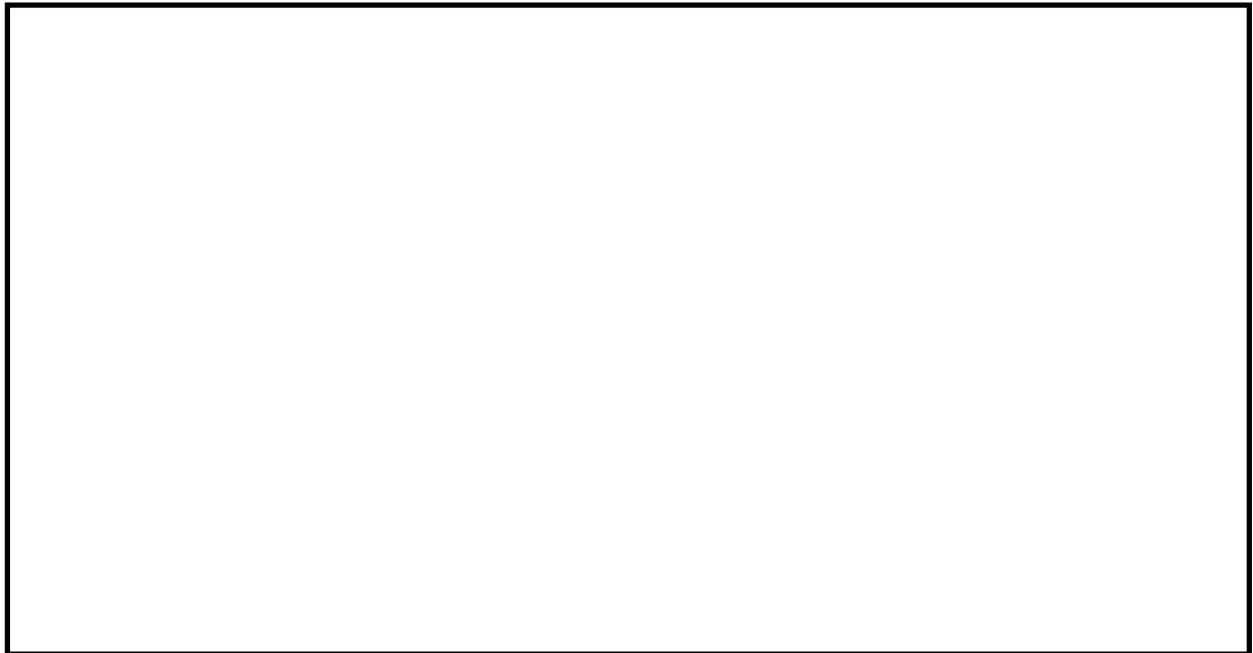

## Manned and unmanned missions

---

Grade 2 Science Worksheet

Imagine you get to go to space on a manned mission.  
Where would you go? What would you do?  
Draw and write about your mission.
