

Balanced and unbalanced forces

Grade 3 Science Worksheet

Draw one example of balanced forces and one example of unbalanced forces.

| <u>balanced</u> | <u>unbalanced</u> |
|-----------------|-------------------|
| | |

Do all forces cause objects to move or change shape? Explain.

Answers

Draw one example of balanced forces and one example of unbalanced forces.

Answers will vary.

Do all forces cause objects to move or change shape? Explain.

If forces are balanced, objects will not change their shape or motion. Unbalanced forces will cause objects to change their motion or shape.
