

Preparing for weather hazards

Grade 3 Science Worksheet

Match each weather hazard to a way people can prepare for it.

Weather Hazards

Preparation

- reservoirs to collect and store water when it rains
- dams and channels to control the flow of water
- buildings that can withstand strong forces
- lightning rods on tall buildings
- insulate water pipes so they don't freeze and crack

Preparing for Weather Hazards

Grade 3 Science Worksheet

Draw and write about one way people where you live prepare for severe weather.

Answers

Weather Hazards
