

Answers

1. $5 \times 3 = 15$
There were 15 guests.
2. $15 \div 3 = 5$ guest's cars.
 $5 + 1 = 6$ (including Emma's car)
There were 6 cars parked outside her house.
3. $25 - 15 = 10$
There are 10 more cups than the number of guests.
4. $8 - 12 \div 2 = 2$
There were two packs of chips.
5. $2 \times 20 - 9 \times 3 - 4 = 40 - 27 - 4 = 9$
Emma got back \$9 of change.
6. $32 \div 8 = 4$
